-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

## DETAILED ACTION

### *Specification*

1. The disclosure is objected to because of the following informalities: in the paragraph beginning on page 7 line 2 of the specification, next to last line, "h1" should be changed to -- h2 -- to correct a typographical error (see amendment filed January 5, 2006).

Appropriate correction is required.

### *Claim Rejections - 35 USC § 103*

2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
3. Claims 1-3 and 6-9 are rejected under 35 U.S.C. 103(a) as being unpatentable over Carolla et al. (4,854,362) in view of Senger et al. (3,831,656).

The only difference between the claimed tire and the Carolla et al. automobile racing tire is the width of the zero degree belt ply 150 (embodiment of Figure 2, col. 2 line 60 - col. 4 line 66: first ply cord angle 72 degrees, shoulder ply 60, 60' cord angle not more than 67 degrees, radial height of inner ends 68, 68' clearly within the broadly claimed ranges of at least 8% of radial height of first ply, 12-35%, and 20-35%), however Senger et al. teach to provide such high speed tires with a zero degree ply width of 75-90% and preferably 85% of the tire section width in order to prevent belt ply edge separation and reduce the distortions, deformations, undulations, or waves occurring during high speed usage (col. 1 line 3 - col. 4 line 51); it would therefore have been obvious to one of ordinary skill in the art to provide the zero degree ply in the Carolla et al. tire with a width of 75-90% and preferably 85% of the tire section width in order to prevent belt ply edge separation and reduce the distortions, deformations, undulations, or waves occurring during high speed usage.

*Allowable Subject Matter*

4. Claims 4 and 5 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

*Conclusion*

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Adrienne C. Johnstone whose telephone number is (571) 272-1218. The examiner can normally be reached on Monday-Friday, 10:30AM-7:00PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Richard Crispino can be reached on (571) 272-1226. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
